

Manual for Installing Mestrenova

To Install 90 day license for the Mestrenova Software

Required software and apps

- 1) Download eduVPN software from this link <https://www.eduvpn.org/>
- 2) Download Mestrenova software from this link <https://mestrelab.com/download/mnova/>

Steps to install license

1. First time users :

- 1) Install eduVPN software as per your Operating system
 - a. Use your username credentials from university to login make sure the app is authenticated.
 - b. For students who has troubles in logging and authenticating: Please request your respective (PhD/PostDoc/Staff) supervisor to login with their credentials and make sure that password is not stored in your computers.
 - c. In case of problems, please check detailed steps from page-2
- 2) Download the license file from this link : “needed_file_for_MNova.zip” from this link

http://www.nmragenda-leiden.nl/static/Instruction_Videos_Manuals/needed_file_for_MNova.zip

- 3) After the file is downloaded, please unzip and “File.lic” should be there.
- 4) Open the Mestrenova software and use this file to install

2. Frequent users: (every 90 days, these steps are required)

- 1) Login to eduVPN app and give authorization or authenticate it.
- 2) Open the Mestrenova, “green mark” could be obtained at the bottom right most corner.

- 3) Now, its good for another 90 days.

If you have problems, please contact k.b.sai.sankar.gupta@lic.leidenuniv.nl

Installing the eduVPN and authenticating it: (After the eduVPN is installed, open eduVPN app)
